

L-Argimax Now Exclusive to Pure Health Trends Network

By Pure Health Trends Network

Dated: Dec 05, 2007

Pure Health Trends Network: L-Argimax is here. Max Out on the Good Stuff

Pure Health Trends Network announced today it now maintains total control of its exclusive L-Arginine formulation called L-Argimax.

"Pure Health Trends Network has gone to great lengths on this formulation," states Josh Dandridge, assistant product formulator. "Our next shipment will be even more beneficial, however I'm not at liberty to say any more than that, but the following is from the Pure Health Trends Website, located at <http://www.phtnetwork.com>."

This HGH releasing drink mix has an ice activated flavor system and it tastes great! There are over 10,000 clinical studies on the main ingredient, L-Arginine. Scientists refer to it as the "Miracle Molecule". L-Arginine has been intensely researched for many years but it came to the forefront in a revolutionary way when three scientists were awarded the Nobel Prize in Physiology and Medicine in 1998. They discovered that nitric oxide is a signaling molecule in the cardiovascular system and the amino acid L-Arginine is the body's chief source for creating nitric oxide.

Columbia University refers to L-Arginine as the "Magic Bullet" for cardiovascular health. Since then, L-Arginine

and cardiovascular research in the scientific community and cardiovascular surgeons in particular have been intent on finding out how to unleash L-Arginine's powerful capacity and utilize it in everyday medicine.

More important than the L-Arginine alone is the synergistic blend of nutrients in L-Argimax. The combination in this formula addresses the need for every "body" to have balance to maintain good health and well being.

Pure Health Trends Network will be airing a series of TV and Radio infomercials near the end of the first quarter 2008.
